PRMS eConnect Supplier Portal

Electronically

Acknowledge Purchase Orders
Report Shipments against PO's
Update Product Lead Times
Update Scheduled Delivery Times

eBusiness Made Simple

With Datanational's eConnect Supplier Portal, you will deliver on-line visibility of open purchase orders to your suppliers. In addition to a web-based Purchase Order Inquiry, your authorized suppliers can also electronically acknowledge purchase orders, update scheduled delivery times, update product lead times and report shipments against their scheduled purchase orders or even the individual PO lines.

Automated Workflow

eConnect Supplier Portal includes extensive event messaging and communication functions with all of the parties involved, including planners, buyers, and supplier's users. Requests for changes in delivery times, quantities, or product lead times are e-mailed to an easily maintainable e-mail distribution list, based on everyone's assigned roles. Select accepted changes will automatically update PRMS, eliminating secondary transaction entry and efficiently closing the workflow loop automatically.

One Scan Receipt Process

As shipments are reported on the Portal, a unique transaction number (ASN) is generated and barcoded on the shipping paperwork. When the shipment is received at your door, the ASN# can be scanned at your receiving dock with a barcode scanner directly into PRMS. This is done via a streamlined PO receiving program (mirroring PO0140 functionality) for a simple, one-scan receipt process.

Expert 24/7 Support

The Portal resides on a web server that is hosted and managed around the clock by Datanational's technical support team.

The Datanational Advantage

Our product specialists have worked with many versions and releases of PRMS since our incorporation in 1979. Our proven project methodology has been highly successful in our PRMS eBusiness projects. Our experience, a diverse skill set and hands-on approach with PRMS provide us with the ability to successfully deliver projects based on your specific needs.
